

VERSATECH²

Aluminum Post & Panel Signs

Offer your customers the great looking VersaTech² and get it to them fast!

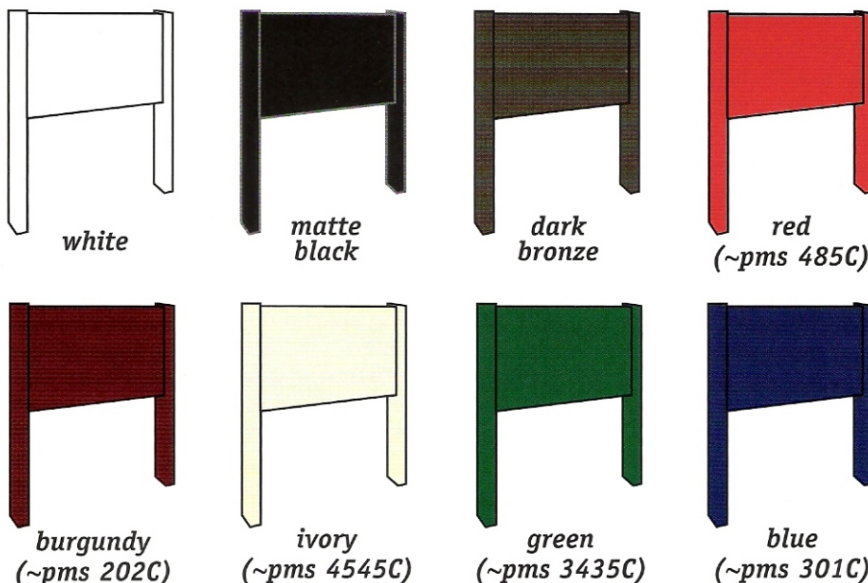

8 Versatile Standard Sizes

VersaTech2 signs are perfect for a multitude of sign needs and applications. The unique VersaTech2 manufacturing process produces a precise, remarkably strong post & panel sign. The 2" x 4" posts allow up to a 60" installed height for standard sized signs and 72" for 'plus' sized signs

8 Versatile Standard Colors

VersaTech2 signs feature a factory applied and baked finish which gives a superior appearance and outstanding durability. Panel and post colors may be mixed or matched. Post caps are black plastic. Non-standard sizes and colors are available, please inquire. * 'Plus' sizes are available in bronze and white only.

The colors shown are printed as accurately as possible. Actual colors may vary slightly. PMS references are approximate.

Increase Sales!

The VersaTech² aluminum post & panel sign system can help your sign company sell more by providing your customer with 3 key benefits:

1. Lower Cost

Want price on your side? Your sign company's wholesale VersaTech² sign cost is 1/2 or less than conventional aluminum post & panel signs. Cost studies indicate a 25% savings to the end user for a decorated and installed sign - with an equal amount of profit for your sign company. Imagine being able to offer a 25% lower cost to your customer and pocket every profit dollar!

2. Reduced Lead-time

What customer doesn't want their sign more quickly? Your sign company can now offer completed signs in less time - most orders are delivered to your door in one week or less.

3. High Quality

Features including rigid folded aluminum construction, flush-faced 2" deep panel, factory baked finish in 8 colors, all add up to a great looking and durable sign to satisfy the discriminating customer.
